Create citation alert

Al crear una alerta de cita desde todas las bases de datos, podrás hacer el seguimiento de todas estas citas (no sólo las de la Colección Principal)

**312 results cited:**

Citations of Photocatalytic production of hydrogen from biomass-derived feedstocks

Refined By: NOT Database: Preprint Citation Index X Clear all

- Dentro de la sección Red de citas de un documento, también puede encontrar las citas procedentes de otras bases de datos distintas de la Colección principal.
- Haga clic en "Ver más veces citadas" para ampliar los datos.
- "Times Cited in All Databases" es muy a menudo inferior a la suma de citas de cada base de datos porque los mismos documentos pueden ser indexados en bases de datos.
- Siempre que el número de citas aparezca en negrita, significa que tiene acceso a la base de datos indicada dentro de su suscripción institucional. Puede ver los elementos citados haciendo clic en el enlace púrpura.

2009 | [BEHAVIORAL SCIENCES OF TERRORISM AND POLITICAL AGGRESSION](#) 1 (1) , pp.12-39

The present article uses terror management theory (TMT) to explore the psychological, social and cultural forces that lead diverse groups and individuals to endorse, promote and enact violence against innocent individuals. From this perspective, it is the psychological function of religious, ideological, national or ethnic ties that is crucial for understanding how they can lead to hatred and v

## Imagine no religion: Heretical disgust, anger and the symbolic purity of mind

[Ritter, RS](#); [Preston, JL](#); (...); [Relihan-Johnson, D](#)

May 18 2016 | [COGNITION & EMOTION](#) 30 (4) , pp.778-796

Immoral actions, including physical/sexual (e.g., incest) and social (e.g., unfairness) taboos, are often described as disgusting. But what about immoral thoughts, more specifically, thoughts that violate religious beliefs? Do heretical thoughts taint the purity of mind? The present research examined heretical disgust using self-report measures and facial electromyography. Religious thought vio

# Buscar las citas a una patente

The Cited Reference in Web of Science can be used to search for Cited Patents too.

To do a Cited Reference Search for patents, enter the patent number in the Cited Title field. Do not specify a country code. For example, enter “5015744” to look up references to patent US5015744. This search will retrieve results for citations to patents from source items indexed in the database.

**TIP – Search the patent numbers of a patent family with the operator OR to find the citations to an invention**

- Aparece para documentos indexados a partir de 2021
- Hasta la fecha, los datos del contexto de citas están disponibles para artículos de más del 75% de las revistas en la Web of Science Core Collection, y esta cobertura continuará expandiéndose.

4 classifications

- La visualización conserva las conexiones lógicas del autor entre las referencias, ya que cada punto representa una mención en el texto de una referencia citada.
- La distancia entre puntos refleja la distancia en el cuerpo del artículo. Los puntos que están físicamente más cerca entre sí están más relacionados.

4 sections (expandable)

Sections hint at the author's intent (introduction = key paper, materials = how to structure experiment, etc.)

# Clasificación de citas

Clarivate evalúa la redacción exacta del autor en las oraciones que rodean la mención para comprender el contexto. Las menciones se clasifican de la siguiente manera:

- **Background** - previously published research that orients the current study within a scholarly area.
- **Basis** - references that report the data sets, methods, concepts and ideas that the author is using for her work directly or on which the author bases her work.
- **Discuss** - references mentioned because the current study is going into a more detailed discussion.
- **Support** - references which the current study reports to have similar results to. This may also refer to similarities in methodology or in some cases replication of results.
- **Differ** - references which the current study reports to have differing results to. This may also refer to differences in methodology or differences in sample sizes, affecting results.
